1. Call to Order

TEXAS FAIR PLAN
ASSOCIATION

Anti-Trust Statement

The creation and operation of the Fair Access to Insurance Requirements (FAIR) Plan Association is authorized under Article 21.49A (now Chapter 2211) of the Texas Insurance Code. The Governing Committee is authorized to administer the FAIR Plan.

When involved in meetings or other activities of the FAIR Plan, Governing Committee members and insurer and agent participants are bound to limit their discussions and actions to matters relating solely to the business of the FAIR Plan and shall not discuss or pursue the business interests of individual insurers, agents, or others. There should be no discussions of or agreements to act that serve to restrain competition. This prohibition includes the exchange of information concerning individual company rates, coverage, market practices, claim settlement practices and other competitive aspects of individual company operations. Each member is obligated to speak up immediately for the purpose of preventing any discussion of any of the foregoing subjects. Counsel is asked to help us be mindful of these restraints and to alert us when our discussion goes into any of the prohibited subject areas.

2. Approve the Minutes

1. Call to Order: Chairman Mark Solomon called the meeting to order at 1:31 pm. Governing Committee members were provided with a copy of the anti-trust statement and reminded of the prohibitions in the anti-trust statement by counsel. Kristina Donley provided housekeeping information to the attendees.
 2. Review of 2024 TFPA Budget: Mr. Harbour started the meeting by going over some key assumptions from the budget.
 - Rate level: Includes 2023 rate increase. Does not project future rate increases.
 - The number of policies in force is projected to increase from a projected 71,749 policies at December 31, 2023 to 81,448 at year end 2024, an increase of 9,600 policies (a 13.5% increase).
 - Employee merit increases is set at 3.5%.
 - Operating expenses: Developed using zero-based detailed departmental budgets.
 - Commissions: Budgeted at \$16.5 million using average rate of 10.7% for new and renewal policies.
 - Premium taxes, licenses and other fees: 1.83%
 - The FAIR Plan \$30 million line of credit that was effective July 1, 2023 is in effect for a two-year duration. The line of credit was renewed at the same commitment fee rate of 30 basis points.
 - Loss and loss adjustment expense ratios used are based on actuarial review.

Mr. Harbour reviewed the budget information with the committee members. He asked if there were any questions. Ms. Mueller had a question about the difference in policies in force for 2022 to 2023. She asked why the budgeted amount for 2024 is 13.5%. Mr. Murphy said it tends to grow quickly, then go down and then level out. Ms. Mueller continued by asking if TFPA does anything about inflation on policies. Mr. Durden said a process of automatically increasing limits was implemented based on inflation. It hasn't been approved yet as filings are pending with TDI.

Ms. Neblett asked if the office move affected the rental costs. Mr. Harbour said by going to a smaller office, the rent has decreased from 2022 and 2021. The cost is around where it was 10 years ago.

3. Adjourn: There being no further business, the meeting adjourned at 3:00 pm.

1. Call to Order: Chairman Mark Solomon called the meeting to order at 3:00 p.m. Governing Committee members were provided with a copy of the anti-trust statement and reminded of the prohibitions in the statement by counsel. Kristina Donley provided housekeeping information to the attendees.
2. Approval of the Minutes from Prior Governing Committee Meeting: Ms. Neblett moved to approve the minutes from the May 22, 2023 meeting. Ms. Mueller seconded the motion. The motion passed unanimously.
3. Election of TFPA Officer: David Nardecchia, TFPA Secretary/Treasurer, has resigned from the governing committee. Mr. Sherlock moved to nominate Debbie King to fill the Secretary/Treasurer position. Ms. Neblett seconded the motion. The motion passed unanimously.
4. TFPA Operational Dashboard: Mr. Durden reviewed the current operational dashboard. Operating expenses are below budget. Written and earned premiums are increasing. Mr. Durden reviewed the current enterprise projects.
5. Financial:
 - A. Report of the Secretary/Treasurer: Mr. Harbour reviewed the Treasurer's Report as the former Secretary/Treasurer has resigned. Ms. Neblett moved to approve the report. Mr. Miletti seconded the motion. The motion passed unanimously.
 - B. Financial Statement Review by Staff: Direct written premiums for the three months ended June 31, 2023 were \$53.6 million, an increase of \$15.6 million. Direct earned premiums were \$40.8 million. Policies in force at year end 2022 totaled 61,452.

The TFPA 2022-2023 reinsurance program was placed through broker Arthur J. Gallagher and incepted on July 1, 2022. The program provided coverage of \$335 million in excess of a \$30 million initial retention and included a "second event" cover that reduced the net retention to \$10 million. Reinstatement premium protection was also purchased with the program. Ceded premiums are earned on a pro-rata basis over the term of the reinsurance coverage. Ceded earned premiums for January – June of 2023 totaled \$16.1 million, which exceeded the budget and prior

year amounts due to the harder than expected reinsurance market experienced during the 2022 – 2023 renewal period.

Direct losses and loss adjustment expense totaled \$31.2 million. The higher than anticipated losses and LAE were due primarily to the damage caused by the tornadoes and storms that struck the Houston area in late January.

Operating expenses were \$6.2 million, which was \$1.0 million over budget. Notable expense items under budget include personnel expenses (\$480,000), professional and consulting (\$151,000), software and hardware (\$78,000), and other operating expenses (\$233,000).

Commission expense was \$5.9 million and premium taxes were \$980,000. Gross investment income was \$514,000. Higher interest rates continue to produce better than budgeted investment income.

The ending deficit as of June 2023 was \$19.4 million. The surplus at June 30, 2023 was also reduced by \$2.5 million due to an increase in non-admitted assets related to prepaid expenses and reinsurance.

- C. Selection of Auditors/Accountants for 2023: Each year, the Association retains an accounting firm to conduct an audit of the Association's financial statements as of and for the year ended December 31. Pursuant to an RFP process in 2021, Calhoun, Thomson + Matza (CTM) was selected to continue in their role as the Association's independent auditor. The engagement letter from CTM for use in connection with the audit of the Association's 2023 statutory financial statements was included in the meeting materials. Legal counsel has reviewed the letter and reports it is the same as last year with no changes in terms or fee amounts. Mr. Milette moved that the Governing Committee of the Association, acting as the audit committee, authorizes and directs that the firm of Calhoun, Thomson + Matza be engaged to conduct the upcoming annual audit of the Association's financial statements on the terms set forth in the engagement letter included in the Governing Committee book. Mr. Sherlock seconded the motion. The motion passed unanimously.

6. Actuarial:

- A. Policy Count/Exposures: Mr. Murphy reported that FAIR Plan is growing, both in policy counts and exposures. Policy counts are up 5% and exposure growth is up just over 20%.
- B. Reserve Adequacy: TFPA actuarial staff has completed a review of Texas FAIR Plan Association loss and loss adjustment expense reserves as of June 30, 2023. Based on this review, the indicated ultimate cost of Hurricane Harvey is \$84.1 million, remaining very close to the previous quarterly review. Due to uncertainties surrounding the adequacy of case reserves and the outcomes of disputed claims, the selected ultimate gross loss and expense estimate has been maintained at \$85 million.

As of June 30, 2023, TFPA carried \$16.6 million in total gross loss and loss adjustment expense reserves with \$3.1 million of the total gross losses and expense reserves ceded to reinsurance companies rated A- or better by A.M. Best Company. Collectability risk has been reviewed and found to be immaterial relative to total gross reserve.

In the opinion of Mr. Murphy, the Association's net reserves met the requirements of the insurance laws of Texas, were consistent with reserves computed in accordance with accepted actuarial standards and principles and made a reasonable provision for all combined unpaid loss and loss expense obligations of the Association under the terms of its contracts and agreements.

- C. Rate Filing Update: The Texas FAIR Plan Association Governing Committee voted at its December 12, 2022 meeting to file for the full actuarial indications for all policy forms, limited to no more than a 10% change in any territory, to be effective August 1, 2023. The filing was made December 22, 2022. The Texas Department of Insurance approved the filing as submitted on March 22, 2023. Implementation of the approved rates is currently underway and on schedule for an August 1, 2023 effective date for all new and renewal policies.
- D. Reinsurance Report: TFPA has successfully secured reinsurance coverage for the 2023 hurricane season as directed by the Governing Committee at its May 22, 2023 meeting and with the assistance of its broker, Gallagher Re.

The 2023 reinsurance program became effective July 1, 2023 and provides protection up to \$365 million. Gross deposit premiums for all reinsurance layers total \$42.6 million, within the maximum premium authorized by the Governing Committee.

- 7. Internal Audit Status Update: Current internal audit activity includes accounts payable and expense processing, accounts receivable, depopulation, CAT Plan tabletop exercises, underwriting, app development and database access, model audit rule and reinsurance funding. Upcoming audit activities include actuarial, communications, legal and compliance and plan of operation.
- 8. Underwriting Operational Review Update: Mr. Ledwik reported that 99.62% of transactions were issued within 10 days of receiving the application and payment. Of those transactions, 89% were straight through processed by the system and 11% were referred by the system to underwriting for additional information, review and approval prior to issuance. Calls were answered in under 20 seconds 82% of the time.

A standard sample of agencies (20) were selected for review in the second quarter of 2023 to verify compliance with the Texas FAIR Plan Association (TFPA) declination of coverage requirement and TFPA producer requirements and performance standards. Of those agents, 45% have responded. Proof of declination was received for 67% of the policies selected. Signed applications were provided for 72% of the policies selected. Signed eligibility requirement statements were provided for 71% of policies selected. At

this time, 11 agents have not responded and two agents that could not provide the requested documentation cited a book of business transfer. All agents selected have an active property and casualty insurance license and the required direct standard market appointments. Staff are following up for outstanding proof of declinations, outstanding signed applications and outstanding signed eligibility statements for the agents who have not fully responded. Follow up audits continue to be conducted on agents who have been previously audited when that audit was deemed non-compliant.

9. Claims:

- A. Claims Operations: First notice of loss to property inspection is averaging 3.2 days. The total cycle time of first notice of loss to payment daily was 9.6 days and 8.8 days for catastrophe. Historical TFPA claim volume for 2023 is 3,021. Ms. Neblett asked if TFPA activated claims adjusters for the spring storms and how many were activated. Mr. Williams said he wasn't sure how many were activated but staff moved CAT claims faster than general claims.
- B. Litigation Summary: Seven first party suits were received and six were closed in the second quarter of 2023. Twenty-six first party and three third party TFPA claims with letters of representation were received in the second quarter. Sixteen first party and four third party claims with letters of representation were closed during the same period. The majority of the suits are held by the Dick Law Firm and Manuel Solis, P.C. Ms. Mueller asked if staff are comfortable with the number of suits. Ms. Crass said the number of disputed claims should go back to normal levels. She expects more activity this year as opposed to a slow 2022.

10. TFPA Operations:

- A. IT Systems Enhancements: Staff has started early preparations for the cloud effort with individuals taking cloud training on Guidewire core applications. The team is in on-going discussions on infrastructure, such as tools and technologies, that will change with the move to the cloud. The project is still on track to start January 2024.

Overall, TFPA systems continue in production support mode with a monthly cadence of releases and the infrastructure and operations team continues to support remote work with excellent quality. All technology-related efforts are on track.

- B. Legislative Affairs Update and Legislative Implementation: The regular session of the 88th Legislature concluded on May 29. House Bill 998 by Rep. Dennis Paul (Harris County) passed and was signed into law by the governor. This bill allows the Insurance Commissioner to designate areas within 10 miles of TWIA's coverage area where property owners' associations would be eligible for FAIR Plan coverage.

The governor vetoed Senate Bill 1393. This bill would have allowed an offer of private market residential coverage that is at least 10% higher than a TFPA offer for equivalent coverage to be considered a declination for purposes of eligibility for TFPA coverage in areas within four miles of TWIA's coverage area.

Staff have launched a Legislative Implementation Program for the 88th Session (LIP 88) to put into effort the new laws impacting Association operations.

11. Closed Session: There was no closed session.
12. Consideration of Issues Related to Matters Deliberated in Closed Session that May Require Action, If Any, of the Governing Committee: There were no items to consider.
13. Future Meetings: The next meetings are scheduled to take place on the following dates in the following locations:
 - December 11, 2023 – Omni Hotel – Corpus Christi
 - February 19, 2024 – Moody Gardens Hotel – Galveston,
14. Committees: There was nothing to report.
15. Adjourn: There being no further business the meeting adjourned at 4:02 pm.

Policies In-Force	69,273	61,976	7,297	11.8%

- Policies in force at year- end 2022 totaled 61,452.

Reinsurance Costs:

- The TFPA 2023-2024 reinsurance program was placed through our broker Arthur J. Gallagher and incepted on July 1, 2023. The program provided coverage of \$325 million in excess of a \$40 million initial retention and included a “second event” cover that reduced the net retention to \$10 million. Reinstatement premium protection was also purchased with the program. Ceded premiums are earned on a pro-rata basis over the term of the reinsurance coverage. Ceded earned premiums for January – September of 2023 totaled \$ 27.4 million which exceeded the budget due to the impact of the TIV true up in late 2022 and the higher than budgeted cost for the 2023 program. The Association recorded an additional \$3.3 million of ceded written premium during September to recognize the estimated increase in cost associated with the upcoming October 2023 true-up of total insured value. The ceded premium is higher than prior year amounts due to the harder than expected reinsurance market experienced during the renewal period.

Loss and Loss Adjustment Expense Incurred

Total Direct Losses & LAE	\$ 39.6 M	\$ 20.0 M	\$ 19.6 M	97.9%
Loss & LAE Ratio	60.7%	35.6%		25.1%

- The higher than anticipated losses and LAE were due primarily to the damage caused by the tornados and storms that struck the Houston area in late January and a return to more normal levels of spring storms experienced throughout Texas.

Operating Expenses

Actual vs Budget	Sep-2023 YTD Actual	Sep-2023 YTD Budget	Variance Inc (Dec)	Variance % Inc (Dec)

5B. Reserve Adequacy

MEMORANDUM

DATE: November 14, 2023

TO: David Durden
General Manager

FROM: James Murphy, FCAS, MAAA
Chief Actuary, Vice President – Enterprise Analytics

RE: TFPA Reserve Adequacy as of September 30, 2023

TFPA actuarial staff has completed a review of Texas FAIR Plan Association loss and loss adjustment expense reserves as of September 30, 2023.

Based on this review, the indicated ultimate cost of Hurricane Harvey remains \$84.1 million, unchanged from the previous quarterly review. Due to uncertainties surrounding the adequacy of case reserves and the outcomes of disputed claims, the selected ultimate gross loss & expense estimate has been maintained at \$85 million.

As of September 30, 2023, TFPA carried \$18.6 million in total gross loss and loss adjustment expense reserves with \$3.0 million of the total gross losses and expenses reserves ceded to reinsurance companies rated A- or better by A.M. Best Company. Collectability risk has been reviewed and found to be immaterial relative to total gross reserve.

In my opinion, the Association's net reserves met the requirements of the insurance laws of Texas, were consistent with reserves computed in accordance with accepted actuarial standards and principles and made a reasonable provision for all combined unpaid loss and loss expense obligations of the Association under the terms of its contracts and agreements. My opinion on the loss and loss adjustment expense reserves net of ceded reinsurance assumes that all ceded reinsurance is valid and collectible.

The complete actuarial analysis is available on request.

5C. Annual Rate Review

MEMORANDUM

DATE: November 21, 2023
 TO: David Durden, General Manager
 FROM: Jim Murphy, Chief Actuary
 RE: TFPA 2023 Rate Review

TFPA actuarial staff has updated its analysis of TFPA indicated rate needs. The methodology used in this analysis is consistent with that used in previous rate analyses. The analysis incorporates the most current data for loss experience and operating expenses as of December 31, 2022. Modeled catastrophe exposures as of March 31, 2023, projected 2024 operating expenses, and the projected cost of the 2024-2025 reinsurance program have also been incorporated.

The following is a summary of rate indications from 2022 and 2023 by product form, capped at $\pm 10\%$:

Product	2022 Analysis		2023 Analysis	
	Indicated	Filed	Indicated	Capped
Homeowners	18.2%	10.0%	15.5%	10.0%
Tenants	28.0%	9.8%	21.9%	8.4%
Condo	29.9%	10.0%	49.5%	10.0%
Dwelling (Fire)	14.2%	10.0%	38.5%	10.0%
Dwelling (EC)	21.1%	9.5%	12.0%	9.5%

Primary drivers of indicated rates are adverse loss experience in the most recent accident period, decreased allocation to operating expense provisions, and increases in average claim costs (loss trend).

I recommend the Governing Committee file for the full actuarial indications for all policy forms, limited to no more than a 10% change in any territory, to be effective August 1, 2024.

Indications by territory are shown on the following pages. The complete actuarial analysis is available on request.

6B. Internal Audit Risk Assessment and Internal Audit Plan

MEMORANDUM

TO: Mr. David Durden, General Manager
Texas FAIR Plan Association

FROM: Bruce Zaret, Partner
Weaver

DATE: December 11, 2023

SUBJECT: Risk Assessment and Internal Audit Plan Resolution

In conjunction with International Standards for the Professional practice of Internal Auditing, Weaver is presenting the annual risk assessment update and internal audit plan to the Governing Committee for review and approval at the upcoming December 11, 2023 meeting in Corpus Christi. The annual risk assessment was updated by management with assistance by Weaver and was used in determining the rolling three-year internal audit plan for fiscal years 2024 through 2026. These documents are presented in the accompanying materials.

The risk assessment and the internal audit plan are completed to assist association management with its risk mitigation efforts and continuous evaluation of processes to improve efficiencies. The risk assessment and internal audit plan are not static documents; rather, they are dynamic and evolve based on the association's changing operating environment and risk factors. Input by the Governing Committee is appreciated in the risk evaluation process and in determining areas subject to audit.

If the materials are acceptable, Weaver requests the TFPA Governing Committee pass the following resolution at their upcoming meetings in Corpus Christi:

Resolved, that the updated risk assessment and the audit plan for 2024-2026 are approved as presented.

Texas FAIR Plan Association Risk Assessment and Internal Audit Plan Update

December 11, 2023

Risk Assessment Process

- ✓ **Purpose:** The accompanying risk assessment has been completed for the purpose of developing an internal audit plan. This risk assessment, therefore, is not an enterprise-wide risk assessment, which may consider other risk characteristics.
- ✓ Risk Assessments:
 - Are required by professional internal audit standards
 - Allow internal audit to focus its resources on the areas of greatest risk
 - Result in a comprehensive internal audit plan that identifies the specific areas of internal audit focus over a period of time
 - The frequency of internal audits performed is based on the over risk assessed, risk trends and other qualitative factors

Risk Assessment Update Process

- Review results of prior risk assessments as benchmark criteria
 - Receive feedback from the Executive Leadership Team
 - Review financial risks, process documentation, and strategic initiatives
 - Consider industry best practices
-
- Evaluate inherent risk of probability and impact
 - Consider current and anticipated business changes
 - For key operating areas, evaluate financial/transaction significance and risk trends
 - Consider the current control environment: staffing, policies, culture, anticipated changes in the environment
 - Assess the degree of legal/regulatory compliance requirements
-
- Summarize risk ratings by business process area
 - Develop internal audit plans for 2024, 2025 and 2026 to monitor and mitigate process risks

Risk Culture Observations

Weaver observed the following organizational culture characteristics while developing the Risk Assessment and Audit Plan:

- ✓ Tone-at-the-top fosters strong control-focused culture
- ✓ Management thoughtfully discussed the risk assessments with Weaver for each business process area
- ✓ Policyholder communications – the Association is proactive in outreach to Texas communities about coverage and protecting property from loss
- ✓ Management was very responsive to our request items and feedback during the course of the audits conducted over the past year

Risk Assessment Definitions

Risks were evaluated based on inherent versus residual risk

Inherent Risk: The natural risk (exposure) in the significant activities of the organization ***without consideration of internal controls*** or other actions that mitigate risk.

Vs.

*The Inherent Risk Assessment was used in developing the proposed areas of the internal audit plan. The plan is subject to review and approval of the Board.

Financial Stability Risks –

- The risk the Association will fail to adequately forecast and plan to achieve necessary cash flow, manage liquidity, receive adequate funding and accurately report financial results.

Operations Risks –

- The risk that internal operations do not adequately identify and provide for the needs of the Association's policyholders.
- The risk the Association's daily processes are not effectively designed to prevent and detect errors or adequately process claim volumes.
- The risk that the diverse nature of the Association's operations, processes, and/or underlying mechanics mitigate the economies of scale to efficiently execute transactions and processes.

Legal and Compliance Risks –

- The risk that legislative and political activities and decisions will have an adverse impact on the Association and inhibit its ability to achieve strategic objectives, or that regulatory changes impair operations and the ability to conduct business.

Reputational Risks –

- The risk of an event generating poor public opinion and/or reduced employee commitment. Considers policyholder relations, agent relations, internal and external communications, data privacy, headline risk, etc.

Fraud Risks –

- The risk of the occurrence of illegal acts characterized by deceit, concealment, or violation of trust. Risks associated with dollar volume, non-conformance with ethical standards, and complexity of operations making detection more difficult.

Information Technology Risks –

- The risk the Association's IT strategy is not aligned with the business model to embrace and rely on technology. Also includes the risk the Association is highly dependent on technology to execute strategic operations and that IT infrastructure and systems are not consistently available and reliable.

I. Overview:

- 99.35% of the transactions were issued within 10 Days of receiving the application and payment
 - a. 89% of the transactions were straight through processed by the system
 - b. 11% of the transactions were referred by the system to Underwriting for additional information, review, and approval prior to issuance
- 88.80% of calls were answered under 20 seconds

II. Agency Compliance Audits:

A standard sample of agencies (20) were selected for review in the third quarter of 2023 to verify compliance with the Texas FAIR Plan Association (TFPA) declination of coverage requirement and TFPA Producer Requirements and Performance Standards. Eighty percent (80%) of agents have responded. The statistics below are results of the analysis of documents that have been provided to date.

- i. Proof of declination was received for ninety-one percent (91%) of the policies selected.
- ii. Signed applications were provided for eighty-six percent (86%) of the policies selected.
- iii. Signed eligibility requirement statements were provided for seventy-eight percent (78%) of the policies selected.

- b. All agents selected have an active property and casualty insurance license and the required direct standard market appointments.
- c. Staff is following up for outstanding proof of declinations, outstanding signed applications, and outstanding signed eligibility statements for the agents who have not fully responded.
- d. Follow-up audits continue to be conducted on agents who have been previously audited when that audit was deemed non-compliant.

9. TFPA Operations

9A. IT System Enhancements

MEMORANDUM

DATE: November 22, 2023
TO: David Durden, General Manager
FROM: Camron Malik, CIO / VP IT
RE: TFPA Information Technology status

The Cloud program continues with prep work involving technical and system architecture discussions with Guidewire and Zensar (System Integrator). The technical upgrade (moving code to the latest cloud version and updating interfaces) is underway and is on schedule to be complete by the end of the month. In the meantime meetings with the System Integrator have begun, to identify the design changes and impacts of the work. The program is still expected to start at the beginning of January 2024.

As far as budget is concerned, IT is \$1.3M under budget projections for the year.

Overall systems continue in production support mode with a monthly cadence of releases and the Infrastructure and Operations team continues to support the organization with excellent quality. All technology efforts are moving according to plan.

9B. Communications and Legislative Update

MEMORANDUM

DATE: November 22, 2023

TO: David Durden, General Manager

FROM: Sarah Edstrom, Senior Manager, Strategic Communications

RE: Communications Operational Highlights

Mission, Vision, and Values:

In support of achieving the Association's mission and reflecting our values, we:

- Held monthly town hall meetings with leadership to foster open communication and address employee queries.
- Developed and provided updated branded templates for the ELT's review.
- Produced change management and communications plans supporting Enterprise projects such as the Legislative Implementation Program and Automatic Adjustment to Limits project.

Operational Updates:

We continued communication with stakeholders about TFPA's operational activities via our website and email updates to the agent community.

MEMORANDUM

DATE: November 22, 2023

TO: David Durden, General Manager

FROM: Anna Stafford, Senior Manager, Legislative & External Affairs

RE: Legislative & External Affairs Operational Highlights

Legislative & Regulatory Affairs

- a) Legislative Implementation: Staff have launched a Legislative Implementation Program for the 88th Session (LIP 88) to put into effect the new laws impacting Association operations. Following is the status of House Bill 998, the TFPA-related legislation passed in the 88th Regular Session of the Texas Legislature:
- i) The bill will require the Texas FAIR Plan Association to offer property owners’ association insurance to homeowners’ and condominium owners’ associations in specific areas designated by the Insurance Commissioner within 10 miles of TWIA’s coverage area.
 - ii) The Association issued a Request for Proposals (RFP) on September 27 for a third-party vendor to potentially manage processes for policies offered under this requirement. We received two proposals by the October 18 RFP deadline, which our internal RFP evaluation committee reviewed and scored. Neither proposal provided the fit we were seeking so we are preparing to reissue the RFP. The targeted RFP reissuance date is December 4, with a deadline of January 5 to receive proposals from interested vendors. The provisional award date for the second RFP is January 26, although we could have an award in place sooner.

Timeline for Reissuance of Request for Proposals Related to House Bill 998

December 4, 2023	Reissuance of RFP
December 11, 2023	Submission of written questions by Respondents
December 18, 2023	Responses to written questions posted to TWIA/TFPA webpages
January 5, 2023	Final deadline for submission of proposals
January 8-19, 2024	Evaluation committee review and recommendations
January 22-26, 2024	ELT review
January 26, 2024	Provisional award announcement

- iii) Staff is also developing processes to manually issue policies required under the bill.
- iv) As TDI continues working on rules defining the geographic area to be covered by this law, we will evaluate the most effective method to administer these policies.

- b) Legislative Meetings: Association staff held three meetings with legislative offices during Q3 2023, primarily to provide background information to new staff on Association issues.
 - i) In October, TWIA staff met with staff for Rep. Dennis Paul (Harris County), the author of HB 998, to discuss the status of our efforts to implement this legislation.
- c) Stakeholder Inquiries: From July 1 through September 30, 2023, we received and responded to two standing legislative inquiries on TFPA litigation.
- d) Operational Updates: We continue to provide regular email updates to the Governing Committee, the Texas Department of Insurance (TDI), legislative staff, and coastal elected officials and stakeholders about Association operational activities.
