NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices, Impact of NAIC/State Differences

The accompanying financial statements of Texas FAIR Plan Association (The “Association”) have been prepared on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance (“TDI”). TDI prescribed statutory accounting practices include state laws, regulations and general administrative rules applicable to all insurance companies domiciled in the State of Texas and the National Association of Insurance Commissioners’ Accounting Practices and Procedures Manual (“NAIC SAP”) subject to any deviations prescribed or permitted by TDI.

Reconciliations of net income and policyholders’ surplus between the amounts reported in the accompanying financial statements (TX basis) and NAIC SAP follow:

B. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in these financial statements and notes. Actual results could differ from these estimates.

C. Accounting Policies

Direct and ceded premiums are earned over the terms of the related policies or reinsurance contracts, respectively. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed using pro rata methods for both direct and ceded business. The Association has a minimum policy premium of \$100.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable. Net investment income consists primarily of interest income recognized on an accrual basis and is reduced by investment related expenses.

In addition, the company uses the following accounting policies:

1. Short-term investments are stated at amortized cost, which approximates market value.
- 2-9. Investment and mortgage loan related, Not applicable
10. The Association does not anticipate investment income when evaluating the need for premium deficiency reserves.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports, plus an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amounts are adequate, the ultimate liabilities may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
12. The Association has a written capitalization policy. The predefined capitalization policy thresholds have not changed from the prior year.
13. Not applicable as the Association does not write medical insurance with prescription drug coverage.

NOTES TO FINANCIAL STATEMENTS

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Association's ability to continue as a going concern.

C. Fair Values for All Financial Instruments by Levels 1, 2 and 3

The table below reflects the fair values and admitted values of all admitted assets and liabilities that are financial instruments. The fair values are also categorized into the three-level fair value hierarchy. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1- Quoted Prices in Active Markets for Identical Assets and Liabilities.

Level 2 - Significant Other Observable Inputs: This category is for items measured at fair value on a recurring basis often determined by independent pricing services using observable inputs. The Association has no assets or liabilities measured at fair value in this category.

Level 3 - Significant Unobservable Inputs: The Association has no assets or liabilities measured at fair value in this category.

Cash, cash equivalents and short-term investments are the only financial instruments held by the Association and the carrying value and fair value are the same.

<u>Type or Class of Financial Instrument</u>	<u>Aggregate Fair Value</u>	<u>Admitted Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Net Asset Value (NAV)</u>	<u>Not Practicable (Carrying Value)</u>

D. Items for which Not Practicable to Estimate Fair Values

Not applicable

E. Instruments Measured at Net Asset Value (NAV)

The Association has elected to use NAV for all money market mutual funds in lieu of fair value as NAV is more readily available. These funds are backed by high quality, very liquid short-term instruments and the probability is remote that the funds would be sold for a value other than NAV.

Note 25 – Changes in Incurred Losses and Loss Adjustment Expenses

A.

Current year changes in the cost estimates of prior accident year losses and loss adjustment expenses (LAE) affect the current year Statement of Income. Increases in those estimates increase current year expense and are referred to as unfavorable development or prior year reserve shortages. Decreases in those estimates decrease current calendar year expense and are referred to as favorable development or prior year reserve redundancies. Current calendar year losses and LAE reflected on the Statement of Income of \$31,211,725 are lower by \$741,770 due to favorable development of prior year estimates as of June 30, 2023. During January through June of 2023, the Association experienced higher losses from storm activity than in the prior year. Increases or decreases of the prior year development of this nature occur as the result of claim settlements and receipt and evaluation of additional information regarding unpaid claims. Recent development trends are also taken into account in evaluating the overall adequacy of reserves. Due to the inherently uncertain process involving loss and loss adjustment expense reserve estimates, the final resolution of the ultimate liability may be different from that anticipated at the reporting date. The Appointed Actuary for the Association has opined that the loss and LAE reserves as of June 30, 2023 make a reasonable provision for Texas FAIR Plan Association.
